THE ALTA MINE.

The Cooks are catching it all round, because the Alta mine is full of water. The Cooks are believed to be, in some way responsible for the water in Alta. It is true that it is not quite clear to the popular apprehension how the Cooks got the water in, but the water is certainly there, and who but the Cooks could have let it in? It is not easily understood how the Cooks could have kept the water out, had they been so inclined, but the popular suspicion is that they didn't want to keep it out; that they were rather glad when it came in; that they hoped and expected it would come in; that they knew it would come in; and that they had planned from the very first to bring it in. The popular indignation against the Cooks has taken all these forms of accusation.

What a great booby gambling public it is, to be sure. It rushed in to buy Alta when it knew absolutely nothing about the state of the mine. Its only reason for buying was that the stock was "going up," and there was every appearance of a "big deal." Then the water came in; everybody was certain that it was let in on purpose; that the Cooks did it; and a panic resulted, the stock dropping down to its old figure of \$3 a share or thereabouts. From the beginning to the end of the so-called deal the public knew nothing about the mine. They had no more reason for buying than they had for selling out in the panic.

The grumbling which has been going on in San Francisco the last few days has had the effect of bringing out some interesting information in regard to the mine. Archie Borland testified at a meeting of "dissatisfied" stockholders on Tuesday night as follows, according to the Bulletin's report:

"He said that Daniel Cook pulled out a map and a diagram showing the assays of the ore every five feet. The length of the ore body was between 400 and 500 feet, and the average assays of one of the drill holes was \$70. That day he bought 2,000 shares of Alta, paying from \$8.50 to \$10 for it. The next day he paid \$10 or \$12, and afterward as high as \$15.25. He was assured that it was a \$300 stock. Cook told him that Derby would be in town that day, and after buying the stock he went up to see him. Derby confirmed the assays, and said: 'Now you know just as much about it as we do.' He made no mention of the water at all. The assays ran up as high as \$157 a ton."

Well, what has happened to prove that the statements made to Borland were false? Nothing. The flood of water has prevented any exploration of the ore body. Just when the drift struck the vein, the water came in and drowned the hopes of the shareholders. It looked suspicious, certainly, that flood of water. The public was so suspicious that for a time it wouldn't believe that any water had been struck. Everybody in Virginia City knew that water had been struck; the Virginia papers said so and gave particulars, but still the "people at the Bay" doubted. They wanted to see the water before they would believe in it. Nothing but ocular demonstration would satisfy them. Had the Cooks exhibited in their office window several bottles of dirty water, labelled "Water from the Alta, 2,050 level," the doubts of the public might have been assuaged. But they did not do this. They took no means to convince the public about the water, just as they took no means to convince the public about the ore.

In the light of these facts, the popular indignation against the Cooks has a comical look. We do not admire the Cooks, nor apologize for them. Their record is a little dark in regard to stock transactions. But so far as the recent movement in Alta is concerned, we cannot see that they are particularly to blame. Suppose it should turn out that Alta has a bonanza! What will be said about the management then? It will be abused probably; abused just as much as it is now, but on different grounds. And it is more than possible that developments will, yet, be made in the Alta that will give new life to mining on the Comstock. Said the Gold Hill News of last evening:

"Water is what's the matter with Alta today. The ore vein is there, and there is every reason to believe that it contains good pay ore and plenty of it. Even this great flow of water is a good sign."

THE DIVISION OF THE SECOND JUDICIAL DISTRICT.

The division of the Second Judicial District, comprising the counties of Washoe, Ormsby and Douglas, has long been necessary, and should be accomplished by an Act of the Legislature this season. One judge cannot do the work of these three counties. Washoe county alone has sufficient legal business to keep a judge busy. Although Judge King has worked hard and continuously in this district, it has been impossible for him to avoid the accumulation of cases on the docket of Washoe county and, we presume, Ormsby also. Litigants are, in consequence, exposed to vexatious delays, and often considerable unnecessary expense. It will pay Washoe county to become a judicial district of itself, supporting its own judge. This we shall by-and-by proceed to show.

The District Court is in session in this county only five months in the year, and yet the business of Washoe is greater than that of Ormsby and Douglas combined. We have January, February, April, September and October. Ormsby and Douglas have the remaining months. To the salary of the judge Washoe and Ormsby each contribute \$2,100, and Douglas the remaining \$500. Yet, although we pay less than half the salary of the judge, the frequent adjournments of Court put the county to more expense than the balance of his salary amounts to. A legal gentleman estimates that the direct cost to this county, caused by these adjournments, of jury fees and other Court expenses, and for the maintenance of prisoners in the jail, is fully \$3,000 a year. Then the cost of repeated continuances in important cases, continuances made necessary by the brief term of the Court and by a crowded calendar, is often very great to individual litigants and tax-payers. Had Washoe county a District Court in session whenever business required it, the jail expenses and Court fees would be greatly lightened. It is now possible for a prisoner to be kept in the jail six months, at an expense to the county of \$1 per day, before he can be tried. There is no Court between April and September. The bar of Reno are unanimously in favor of the division of this judicial district, and believe that the county would, both directly and indirectly, save money by the change.

We understand that Judge King favors the proposed change and believes it to be necessary. To bring it about an Act must be passed in the Legislature. It will be advisable to annex Churchill to this county for judicial purposes. When Mr. Boardman was in the Senate, Senator Grimes once proposed to him to add Churchill to this district, saying that Churchill would contribute \$800 per year. This change would be a boon to Churchill, as Stillwater, the county seat, is only forty miles from Reno, and were the Court of its district in session here, it would be easily accessible. Churchill is now tacked on to Lander and Nyé, and Judge McKinney, of the district which those three counties form, is nearly all the year 200 miles away from Stillwater.

Judge King has yet two years of his term to serve, and his consent to the division of this district is requisite to enable the split to be made this winter. It is understood that he stands ready to resign when such legislation shall have been accomplished, of course with the condition that he shall at once be appointed to one of the new districts. Judge King must be retained in Washoe county. He is an honest man and a sound lawyer. Washoe cannot afford to take a cheap judge in his place. It is believed that he is desirous of locating here. The question of salary could no doubt be satisfactorily arranged. It is likely that he would consider a salary of \$4,000, as judge of this new district, to be equivalent to the salary of \$5,000 that he now receives, with the onerous duties and heavy traveling expenses that go with it.

Washoe county's representatives should not neglect this matter in the Legislature this winter. We believe that it will receive their careful attention.

W. B. Woods, of California, has been commissioned by the President to succeed Justice Strong of the U. S. Supreme Court. The nomination of Gen. Hazen as Chief of the Signal Service and of Miles as Brigadier-General have been confirmed by the Senate.

THE CROAKERS.

About a third of the inhabitants of Reno will suffer an actual disappointment, unless the proposed road to Oregon is a failure. They have sat around the saloons and stood on the corners and prophesied unfavorably from sheer force of habit, and now if it should happen to be built, they would be mad. We have often shown the folly of this singular peculiarity of Reno people. They are so afraid some one will do something to benefit the town that they lose sleep in running down new schemes and new enterprises. It has been so with every mine or mill or road that ever was started. Now some strangers come here to build a railroad to Oregon, and the croaking begins. The most absurd and petty objections and criticisms are made. All the GAZETTE has to say to the people of Reno is, give these gentlemen a fair show. If they want to build a railroad, by all means let them do so. We need not put in our money unless we want to, and they are certainly doing no one any harm, even if they fail to build a road. They pay their hotel bills, and to that extent at least they benefit the town. Let them have a minute or two to look around before we proceed to severe measures.

COMMERCIAL TRAVELERS.

The drummers of San Francisco have become so sharp that they are able to evade the payment of the soliciting license imposed by law. The Virginia Chronicle says the officers watch these gentlemen as closely as possible, but they manage to get in and out without payment. Their plan is simply to ignore the revenue officers altogether. When questioned as to whether they are doing business or not, they say no; that they are only collecting money. The business men will not give them away, of course, and so there would be little chance of conviction in the event of arrest. They are never seen to publicly solicit patronage, for they are too careful of that. The drummers find it cheaper to sneak out of the payment of their licenses than to contest legal points in the Supreme Court, as in the case of Siebenhauer. It is probable that an effort to outwit these smooth workers will soon be made. Their present plan of action deprives the city of several hundred dollars during the year. —Eureka Sentinel.

The law might be changed with profit to all concerned. The license at present is prohibitory; consequently it is evaded. If the license were reduced, so men could live, and then they prevented by law from retailing, it would be of immense benefit to Nevada. We would like to see it discussed before the Legislature meets.

THE STATE LEGISLATURE.

The Nevada Legislature will soon be in session. Some things can safely be predicted of it. It will elect James G. Fair a member of the United States Senate. It will discuss a bill to abolish the bullion tax, but its members will not pass the bill unless they are paid to do so.

It will consider bills to restrict fares and freights on State railroads, but will not pass them. These bills will be introduced by men who know as little about railroads as anybody. The proposal to hold a Constitutional Convention will be argued. It is doubtful whether any action will be taken in regard to it. The officeholders will oppose it tooth and nail, for fear that their offices may be abolished or their salaries cut down. The corporations will oppose it for fear of being cinched by the new instrument.

Anyhow, the Legislature will elect Mr. Fair. And it will adjourn.

EDITORIAL NOTES.

The Marquis of Landsdown, one of the heaviest Irish land owners, has abandoned his intention of spending the winter in Ireland, in consequence of the condition of the country. He is afraid it will be too hot for him there.

The GAZETTE is glad to see that the San Francisco Bulletin is earnestly advocating civil service reform. There is no reform more needed in this country, as this paper has often contended. The Eureka Sentinel is also helping along the movement.

De Lesseps is over 73 years old, and Secretary Thompson, who has accepted the Presidency of the Darien Canal Company, is over 70. Both men are very fond of work, and this is probably the reason why they are so well preserved.

The project of a ship canal across France, from the Atlantic to the Medi-

terranean, is receiving much attention. It is to be 219 miles in length; broad and deep enough for the heaviest ships in the French navy.

The sale of pork in Chicago has been greatly affected by several deaths from trichina. There is no danger from eating pork, however, if it be thoroughly cooked. No worm can be roasted and live.

Senator Blaine thinks that two cents is enough postage on a letter, and intends to introduce a bill providing for a reduction in the present rates of postage.

The San Francisco Stock Board will adjourn to-morrow until Monday morning at 9:30 o'clock.

PERSONAL.

Mr. Carstedt departed for San Francisco last evening.

Mrs. W. Carver has gone to San Jose on a visit.

Gov. Woods and J. C. McTarnahan go below to-night.

T. F. Laycock has gone to Eureka to paint the scenery for the new theater there.

J. C. Smith's daughter, Miss Alma, of Vacaville College, is home for the holidays.

Gen. Evans left last night for Colusa county, Cal., to spend the holidays with his children.

Mr. McMechan, a Director of the Nevada & Oregon road, returned to San Francisco last evening.

Col. Moore left last night for his home in New Jersey. He returns to Reno early in January.

Miss Kate A. Sill, Principal of the Bishop's School for Girls, went below last night to spend the holidays.

The Play To-Night.

The "Streets of New York," a lively sensational drama, will be enacted at the Nevada Theater this evening by a talented company. The names of a number of well-known residents appear in the cast, and the leading parts are sustained by G. C. Staley and Morris Gregory, two actors well known on this coast. The following is the cast:

Badger.....G. C. Staley
Gideon Bloodgood.....Morris Gregory
Captain Fairweather.....E. L. Bridges
Mark Livingstone.....Tom Julien
Paul Fairweather.....G. W. Colton
Puffy.....
Dan.....Geo. Smith
Edwards.....A. M. Holiday
Deputy Sheriff.....J. Price
Alida Bloodgood.....Miss B. Leonard
Mrs. Puffy.....Miss Jessie Barnes
Mrs. Fairweather.....Mrs. Geo. Cutting
Lucy Fairweather.....Miss L. Mosher
and a host of auxiliaries and firemen under the immediate supervision of Hank Rhodes, Master Mechanist, James Holiday.

Many reserved seats have been taken, and the company will doubtless perform to a good house. Scenery has been painted especially for this play in T. F. Laycock's best manner. Admittance, 50 cents; reserved seats, 75 cents.

Coal Takers.

Five Chinamen were sent up from Wadsworth to the county jail last evening. They had been caught stealing coal from the Central Pacific by Detective Harris. Justice Drought of Wadsworth sentenced them to sixty days' imprisonment. The Central Pacific is not disposed to allow its coal to be tampered with just now, while there is a corner in the market.

JOT INGS.

A girl advertises to do housework.

"Scarlet rash" is prevalent among the children.

Go to hear the splendid canary at Brookins'.

The railroad men say that ball in Wadsworth on New Year's eve is going to be a fine affair.

The White House is a good place to go to, if you want to buy sensible Christmas presents for gentlemen.

Plastering has been commenced in the South Side school house. The building will probably be completed by January 1.

The sheep sold by Deputy Sheriff Chamberlain in Spanish Springs valley yesterday were bought by Myers at 50 cents a head.

Stocks were a little timid this morning. Alta hung at \$2.95 and \$3. Union was boosted as high as \$12. Transactions were light.

E. Johns, the dyer and clothes cleaner, left Reno abruptly on Saturday night or Sunday morning. A number of small bills against him remain unsettled.

The report that S. Arnstein was one of the five Chinamen caught stealing coal at Wadsworth is incorrect. It had no foundation whatever. Mr. Arnstein would not soil his hands with coal when there is wood to be had.

Ancient Order United Workmen.

A lodge of the above order, working under the Supreme Lodge of the United States, was organized here on 23d of October, 1879, with twelve charter members. Notwithstanding the general depression in every field of trade or labor, and especially in this country, the success of Nevada Lodge No. 5, A. O. U. W., is very gratifying. By close economy, with a monthly tax of fifty cents per member, the lodge is free from debt and has a balance of \$30 in the treasury. The membership has gradually increased since organization, and to-day, though not large in numbers, they have many of our most esteemed and prominent citizens. The tax for the insurance of \$3,000 on the life of each member, for the year just closed, was but \$17 per policy, which is less than one per cent. The lodge begins the new year with the promise of a large membership ere the close of the present term. On Monday evening last, at their regular semi-monthly meeting, the members of Nevada Lodge No. 5, A. O. U. W., elected the following officers for the ensuing year: Geo. W. Cunningham, Master Workman; C. R. Wicks, Foreman; Al. Lyman, Overseer; F. McRae, Recorder; W. D. Wagar, Financier; Alson Dawson, Receiver; R. W. White, Guide; D. McKay, Inside Watchman, and P. B. Comstock, Outside Watchman.

Opposed to Married Teachers.

VERDI, Dec. 18.
Ed. Gazette.—A great many foolish and unnecessary comments have been made by the press of California in regard to the new rule of the San Francisco Board of Education, prohibiting the employment of married women as teachers in the public schools, a rule which any sensible man can see cannot help but promote the harmony and efficiency of the school service. As you well know, School Trustees receive little or no compensation for the duties entailed upon them by their office, and who would feel like escorting lady teachers home on rainy afternoons, or paying them the numberless attentions Trustees are called upon to, with visions of a six-foot husband and a stuffed club floating through his brain? I, for one, am in favor of the adoption of the rule, and hope our State Board of Education will take some action in regard to adopting the same rule in this State.

SCHOOL TRUSTEE.

IF School Trustee will look into the matter, he will find that firing with the schoolmasks is no part of the Trustee's duty, and should not enter into the question.—Ed. GAZETTE.

Work on the Nevada and Oregon.

H. L. W. Knox has the contract for grading the first three miles of the Nevada and Oregon railroad, commencing at Reno and going north. John Sturgeon has the contract for the trestle work of the same section. The papers have been signed. Work will be commenced next Monday if the weather should prove favorable. It is understood between the contractors and Col. Moore that no Chinese labor shall be employed.

S. C. Scovill is to be the company's inspector.

Dissatisfied Alta Stockholders.

SAN FRANCISCO, Dec. 22. The committee appointed by dissatisfied stockholders of Alta last evening met to-day and appointed the following Executive Committee, to which everything in connection with the business was referred: Archie Borland, Homer S. King, Geo. T. Marye, Jr., H. M. Levy and G. Franks. The committee was instructed to report as soon as possible. It was reported that the committee had already secured proxies for over fifty thousand shares.

The Alta Superintendent's Report.

SAN FRANCISCO, Dec. 23, 1880. Superintendent Boyle, of the Alta mine, has made his report as required by the trustees. It gives considerable detailed information regarding the progress of the workings and the prospects of the mine, but contains nothing specially new on the subject of the recent striking of water.

The Verdict in the Mussel Slough Case.

SAN FRANCISCO, Dec. 23. In the Mussel Slough case the jury to-day brought in a verdict convicting all the defendants. They were held in \$5,000 bail each, and the second Monday in January set for sentence, and for hearing motion for a new trial.

Christmas Presents Going.

Queen's display of holiday goods has attracted a great deal of attention. His recent visit east gave him a great advantage in selecting his stock. He has already sold a great many beautiful presents for Christmas, and he is anxious to close everything out. Hence his prices will be made so low that it will be an object to his customers to spend their money.

Santa Claus is coming near.
His march to this earth is bound
To bring joy to grown and children dear.

But then he cannot take all things
On his great white old wings;
And many gifts are left therefore
At Isaac Barnett's dry goods store.
For your wife you can find
Dress goods of a hundred kinds;
Silks, satins, broches, cashmere,
To suit a fancy ever so queer.
And oh the cloaks, dolmans and burnisees,
Such a present will deserve many kisses.

For ties, silk hand'ys, of all shades
Many hearts expecting wait;
Hoods, nubes and beautiful hose
Ladies' heads, necks and 1—to enclose.

But you must not forget household wants,
Blankets, carpets, towels, napkins and tidies for stands,
And many other fancy and necessary wear.

To beautify the home you care.
For children's cloaks, gloves, etc.
their eyes to blent,
Which will make them joyous clap their little hands.

How their little eyes will gladdening shine,
And loving their little arms father and mother entwine.

To make hearts flow with delight,
And eyes shine as bright as a Christmas light,
Go to Barnett's Dry Goods Store
And get your presents as stated before.

GOODS.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.

Boss Coffee, Tea Pots & Urns.

It is the Boss! Why? Because it produces

Boss Coffee.

It makes rich flavored Coffee! Why? Be-

cause all the aroma and food are retained.

It beats them all! Why? Because it saves

100 per cent over boiled Coffee which is

not Coffee, but bitter water. Second—Be-

cause it saves 50 per cent over any other

method of making Coffee. Third—Be-

cause it saves eggs and trouble of clarify-

ing. Fourth—Because it makes Coffee

as clear as red wine. Fifth—Because it

takes only two minutes to make Boss

Coffee.

The Boss works as well on Tea, and saves

25 to 50 per cent.

While Edison may furnish light to mill'ons,

the BOSS will assuredly give health to all

who use it. Thousands have become dys-

peptic and bilious from drinking boiled

Coffee or BITTER WATER (boiled Coffee is no

Coffee, but bitter water poisoned with Coffee

poisoning). Stop drinking boiled Coffee. Make

your Coffee as NATURE ORDAINED, and restore

your health. Many physicians have racked

their brains to furnish
